An Eco-Landscape Lecture

Pollinators

What Do Bees Need?

How to Support Native Bees on Cape Cod

THURSDAY, June 20th at 2pm

Mashpee Library

64 Steeple St, Mashpee 02649

Emily May from The Xerces Society for Invertebrate Conservation to learn about the diversity of native pollinators on Cape Cod and how you can help protect these important insects. The presentation will cover how to recognize native bees, intro to native bee biology and habitat needs, planting for pollinators, and how to make your yard or garden a sanctuary for bees, butterflies, and other beneficial insects.

Event is free*, but **registration is requested.**

Registration begins April 1st at www.APCC.org/events

*This is part of a stormwater management project to improve water quality in the Three Bays area of Barnstable and is funded by the Massachusetts Office of Coastal Zone Management and the Environmental Protection Agency's Southeast New England Program (SNEP) Watershed Grants through a collaboration with Restore America's Estuaries.
